ABOUT ME

I'm seeking my next challenge! I'm eager to apply what I've learned so far and to continue advancing, developing and flourishing in the field. I prioritize clean and efficient code, possess rapid learning abilities, and excel in communication, presentation and documentation. Whether collaborating within a team or working autonomously, I thrive and adapt well. I'm driven by limitless motivation and I'm recognized for fostering a positive and productive work environment. Give me a try! :)

WORK EXPERIENCE

2024- Present

Juganu

Full-Stack Developer (Backend Oriented)

I focus on designing and optimizing scalable server-side applications, APIs, and databases. While I contribute to frontend development, my expertise is in backend architecture, ensuring efficient data handling and seamless system communication. I collaborate with cross-functional teams to deliver robust technical solutions.

2023- 2024

Moveo Group

Full-Stack Developer (Frontend Oriented)

As a Full-Stack developer, I collaborated with clients to design customized projects, utilizing various languages and technologies to meet their specific needs. Additionally, I mentored new employees in the company's "Skills" training program, providing guidance on software principles, customer communication, and presentations.

2019-2022

Government Office

Information Coordinator

Prime minister's office classified position in which I was responsible for producing an interactive picture for the senior decision-maker. The job also included gathering information from other security bodies in times of stress, using advanced technologies.

2017-2019

Military Service

Data Collection Specialist

"Unit Outside The Security Forces 1014" classified role in which, among other things, I have been authorized to collect data using advanced systems.
